Whereas sports and fitness activities contribute to emotional and physical well-being;

Whereas women need strong bodies as well as strong minds;

Whereas the history of women in sports is rich and long, but there has been little national recognition of the significance of the athletic achievements of women;

Whereas parents feel that sports are equally important for boys and girls and that sports and fitness activities provide important benefits to girls who participate;

Whereas early motor-skill training and enjoyable experiences of physical activity strongly influence life-long habits of physical fitness;

Whereas the performances of female athletes in the Olympic Games are a source of inspiration and pride to the people of the United States;

Whereas the athletic opportunities for male students at the collegiate and high school levels remain significantly greater than those for female students; and
